

The Enviro Case™ was developed to eradicate bed bugs from items without using harsh chemicals.

The Enviro Case™ provides a safe and effective solution to resolve a bed bug issue quickly and discreetly!

Eliminate Bed Bugs from your personal belongings...
FOR GOOD!

This simple but extremely effective design makes it safe to use on clothing, bedding, shoes, outerwear, wallets, toys, books, backpacks and just about anything that can fit in the case.

Simple & Easy Instructions

- Place items in case
- Zip closed and plug case in
- Unit will automatically turn on and run for 90 minutes of heat treatment
- Timer will count down and automatically shut off when completed
- Remove items, wipe case down and it's ready to use again

It's that Simple!

"We are extremely pleased with the results after using the Enviro Case™. The portable Enviro Case™ unit has effectively treated bed bug infested clothing and other personal belongings and enabled us to provide a bed bug free environment. It has been a very welcomed solution to this very difficult problem for healthcare facilities."

Lawrence K. Park, Vice President, Corporate Health, Safety, Environmental Affairs, Engineering @ Risk Management, Fresenius Medical Care.

ENVIRO CASE™

Fast, Effective and Discreet

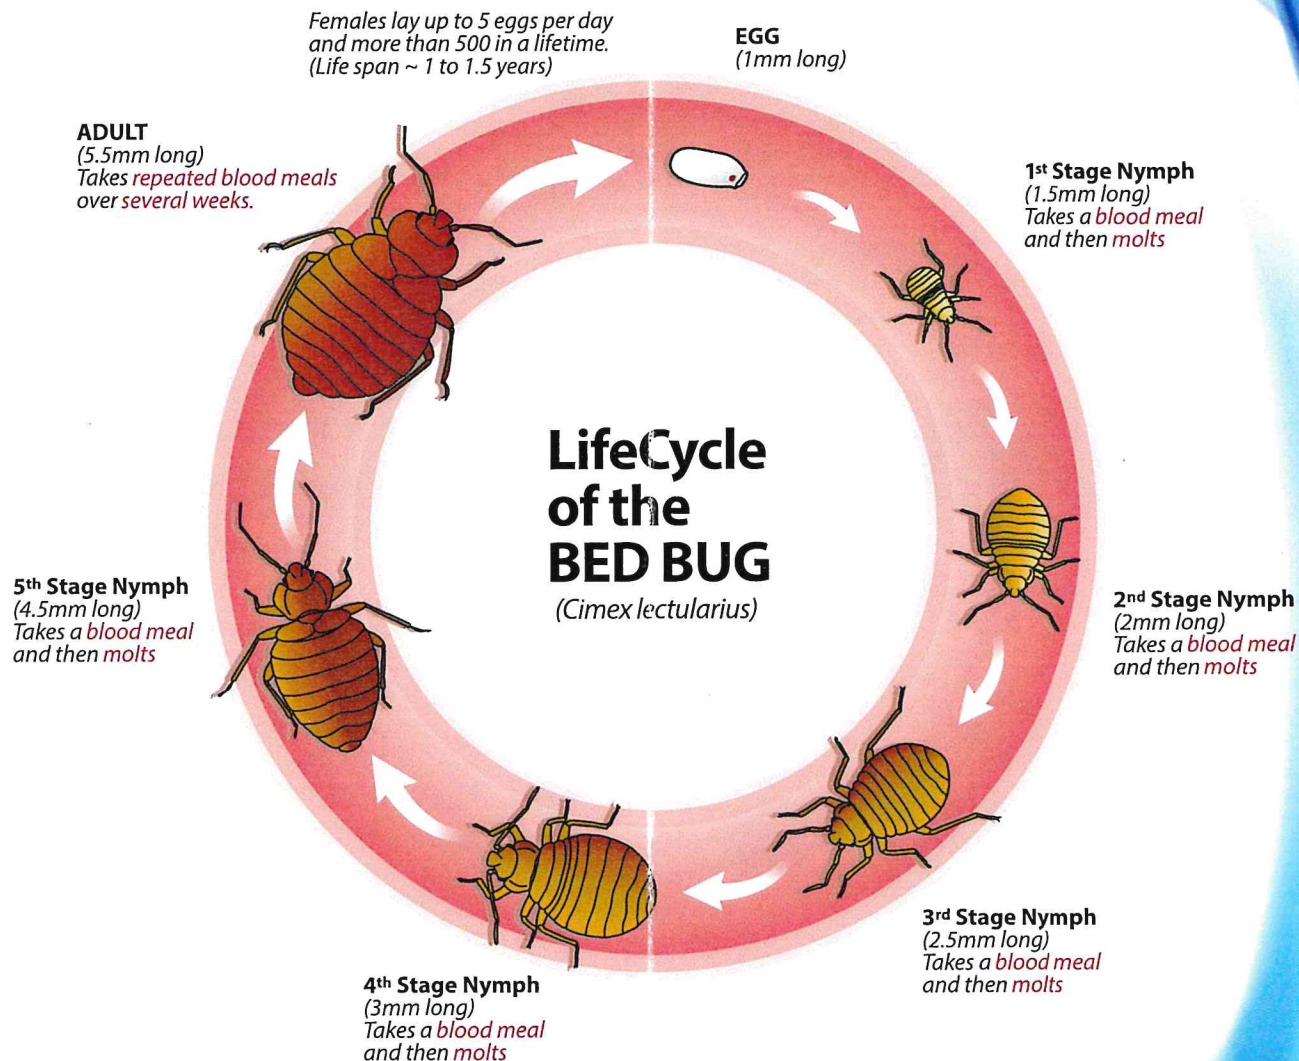

PREVENT INFESTATION OF BED BUGS

The Enviro Case™ is designed to kill bed bugs by way of heat. Our unit utilizes a 5 heater system that helps circulate the heat throughout the case, reaching the core at optimal temperatures. It heats between 150 - 220 degrees Fahrenheit for 90 minutes. A bed bug cannot survive above 113 degrees Fahrenheit, therefore, killing any bed bugs that are in the case.

The Enviro Case™ is extremely light and easy to carry. It's spacious 19x10x11 area can be utilized for all of your personal belongings that have been infected.

**The Enviro Case™ comes
READY TO USE!**

Infestation can occur quickly. The Enviro Case™ is your solution to eliminate the threat of infestation in a *fast, effective* and *discreet* manner.

The Enviro Case™ will kill bed bugs and their eggs at ALL stages of their life cycle, including ticks, lice and more.
